About Me

Hi, I'm **Dr. Innocent Nzili**, a dedicated medical professional specializing in **Medical Imaging and Radiology**. I currently work at Kenyatta National Hospital, where I utilize advanced imaging technologies to ensure accurate diagnoses and effective treatment plans.

I specialize in using **X-rays, Ultrasound, CT, MRI, and other imaging techniques** to guide minimally invasive procedures. By navigating small instruments like catheters and needles through blood vessels and organs, I treat a variety of conditions with precision. Some of the procedures I perform include **angioplasty, stenting, thrombolysis, embolization, image-guided thermal or cryoablation, and biopsies**. These minimally invasive treatments help cure or alleviate symptoms of numerous diseases, including vascular disease, stroke, uterine fibroids and cancer.

Medical Services

Medical Imaging Interpretation

Expert analysis of X-rays, Ultrasounds, CT scans, MRIs, and other imaging techniques to provide accurate diagnoses.

Patient Consultation

Providing expert medical advice and consultations based on imaging results to guide treatment plans.

Vascular & Stroke Treatments

Using advanced imaging techniques to diagnose and treat vascular diseases, stroke, and other circulatory conditions.

Cancer Diagnosis & Treatment

Providing image-guided cancer treatments like thermal or cryoablation, and assisting in precise tumor localization.

Women's Health Imaging

Specialized imaging for conditions such as uterine fibroids, breast health, and reproductive system disorders.

General Diagnostic Imaging

Supporting physicians with comprehensive imaging services for various medical conditions.

Minimally Invasive

Neuroimaging

Advanced brain imaging for

Musculoskeletal Imaging

Medical Portfolio

Advanced Imaging Diagnostics

Interpretation of X-rays, Ultrasounds, CT scans, and MRIs for accurate patient diagnosis and treatment planning.

Minimally Invasive Procedures

Performed image-guided interventions such as angioplasty, stenting, and tumor ablation to enhance patient recovery.

Vascular Disease & Stroke Treatment

Utilized advanced imaging techniques to diagnose and treat vascular conditions, improving patient outcomes.

By the Numbers

5000 +

Procedures Performed

3000 +

Patients Treated

10 +

Years Experience

Medical Expertise

X-ray Imaging

Expert interpretation of X-ray scans for diagnosing fractures, infections, and other conditions.

Ultrasound

Specialized in ultrasound imaging for pregnancy monitoring, organ assessment, and vascular conditions.

MRI (Magnetic Resonance Imaging)

Advanced MRI diagnostics for neurological, musculoskeletal, and soft tissue conditions.

CT (Computed Tomography)

High-resolution CT scans for diagnosing internal injuries, tumors, and vascular diseases.

Interventional Radiology

Performing minimally invasive procedures like angioplasty, embolization, and image-guided biopsies.

Cardiac Imaging

Using advanced imaging techniques to assess heart conditions and detect cardiovascular diseases.

Neuroimaging

Specialized brain imaging for detecting strokes, tumors, and neurodegenerative disorders.

Musculoskeletal Imaging

Analyzing bone and joint conditions, including fractures, arthritis, and sports injuries.

What Patients & Colleagues Say

"Dr. Innocent Nzili's expertise in radiology helped diagnose my condition early, leading to a successful treatment. His professionalism and kindness made the process much easier for me."

- Mary K., Patient

"Dr. Nzili is an exceptional radiologist. His detailed imaging reports and collaborative approach have greatly improved our ability to provide precise and effective treatments."

- Dr. James O., Cardiologist

"Thanks to Dr. Nzili's thorough analysis of my MRI scans, we were able to catch a critical issue in time. His attention to detail is unmatched!"

- Daniel M., Patient

"Dr. Nzili's radiology expertise has been instrumental in our hospital's success. His insights and recommendations always contribute to better patient outcomes."

- Dr. Cynthia L., Neurologist

"A true professional in medical imaging! Dr. Nzili's accurate diagnoses and compassionate patient care make him one of the best radiologists I've worked with."

- Dr. Robert S., Orthopedic Surgeon
